Better Business Bureau Recognizes U.S.E.C. LLC, d/b/a US Energy Consultants as the Winner of Pinnacle Award

Houston May 20th, 2015 - In recognizing businesses and non-profits for their achievements and commitment to quality in the workplace, US Energy Consultants was one of 314 companies recognized at the annual Better Business Bureau Awards of Excellence luncheon, held Wednesday May 13th, 2015. USEC was recognized as the winner of Pinnacle Award in the Energy Services, Power Products and Energy Marketers Category, this was the fourth time USEC is to be recognized by the Better Business Bureau for service excellence.

The BBB Awards for Excellence recognizes businesses and non-profits for their achievements and commitment to overall excellence and quality in the workplace. Proceeds from the event help fund the BBB Education Foundation, which educates consumers about scams and fraudulent business practices in the Greater Houston area.

When asked what it means for USEC to receive this recognition, Mikhail Skachko president and chief executive officer of USEC said, "Winning the BBB Pinnacle Award is an incredible honor and applying for it is one of the most important things we've done for our business. Winning the award has given our customers and prospects peace of mind because it's a substantial, objective reason to trust us. Deregulated Energy is a part of everything we do these days, and we take our responsibility of guiding and educating customers seriously. However, integrity is a difficult thing to demonstrate before a customer becomes a customer. This award verifies we are who we say we are and that we take daily action to back up our claims of being the Experts in the deregulated energy industry. The BBB Pinnacle Award is so special because it's exclusive - not easy to win. A spotless BBB record is a pre-qualifier. The application process is rigorous. The competition is stiff; after-all we are the only Broker in the category full of Suppliers and Generators. It is an amazing validation of our years of doing "what's right" for customers, employees and suppliers."

About US Energy Consultants

www.usecllc.com

Founded in 2008, USEC is a 100% fully integrated energy consulting and brokerage firm specializing in energy procurement and management services. To date over 3,600 diverse clients of all sizes have entrusted USEC with their energy needs. These clients include commercial and industrial businesses, hotels, hospitals, restaurants, property management companies and nonprofits. Combining a strong and diverse portfolio of providers, transparent pricing, and unparalleled industry experience and service, our customers enjoy the freedom of exploring all their options when it comes to choosing a plan and a provider.

Our Mission Statement:

"To provide value, options, and control to all customers no matter big or small, with the best combination of Price and Term in the industry."
